- Analysis and requirements gathering

## EMPLOYMENT HISTORY

### 3DEV SOLUCIONES TECNOLÓGICAS S.A.S

#### JUNIOR DEVELOPER

October 2019 - March 2020

My main tasks in this job were:

- Migrate old Forms and Implement Master Pages and Web Controls in all Forms
- Update Libraries and Frameworks versions (jQuery, Bootstrap and Others)
- Stabilising Libraries and updating Nugget packages
- Developing and maintaining WPF applications with VB.NET and .NET Framework

#### SOFTWARE DEVELOPER

April 2020 - April 2021

My achievements during that year:

- Collaborate in the development of desktop applications with WPF
- Collaborate in the development of Web Forms applications with ASP.NET
- Develop real-time applications with SignalR and ASP.NET
- Develop mobile applications with Ionic, Cordova, Angular in the Frontend and ASP.NET in the Backend.

### BITCODE IT SERVICES S.A.S

#### SOFTWARE DEVELOPER

May 2021 - August 2021

- Tutoring .NET to other developers
- Improve the security of the backend of the web application.
- Create services to systematize tasks in the development flow

#### TECHNICAL LEADER

September 2021 - Present

BITCODE decided to promote me because of my proactivity and ability to transmit knowledge. During this time my tasks were:

- Implementing a Scrum / DevOps culture in the team.
- Taking care of some projects at a technical level.
- Mentoring new developers
- Translating customer requirements to developers
